Business Analysis

Foundation and Practitioner

Business Analysis is the discipline of identifying business needs and determining solutions to business problems that deliver value to stakeholders.

Qualified Business Analysts are in high demand, and for good reason; they can make all the difference to the success and security of business operations.

Our BCS accredited Business Analysis Foundation training course is designed to give delegates the first step into the Business Analysis role, teaching them the relationship between the business, IT and the users.

Our training will also help delegates identify opportunities in our rapidly changing world, by preparing you with the skills modern companies need from their employees to remain competitive.

A ByteSize introduction to **Business Analysis**

“

What could have been a daunting amount of learning was delivered in a way that was manageable, engaging, participatory and encouraging.

The trainer presented the material clearly and at a good pace with regular opportunities to assess and reinforce our understanding; he drew our attention to key areas and guided us through example questions to prepare us for the exam.

I achieved a much higher pass than I had expected. Thoroughly recommended.

Zac Yeo
